ENROLLMENT INFORMATION: Grade level is determined by the student's grade as of August 2018. Registration is on a first-come, first-served basis, beginning March 19. Classes are offered subject to enrollment and are limited to 20-25 students. Confirmation of classes will be sent out starting in late April. Enrollment continues as long as space is available.

FEES: Tuition for full program is \$550 per child (or \$525 if you register by April 13). Some classes have a materials fee in addition to the tuition that is non-refundable and non-transferable after May 15. ALL FEES MUST BE PAID BY MAY 15. Make checks payable to: Santa Monica-Malibu Council of PTAs. No students are allowed to attend class without full payment. Bank-returned checks are subject to a \$25 fee and will disqualify the student from the program until a cash payment is received. A non-refundable, non-transferable \$6 per-student convenience fee is charged when a credit card is used.

REFUND POLICY: Full refund less \$75 handling fee if cancellation is received by May 15. NO REFUNDS AFTER MAY 15.

SCHOLARSHIP INFORMATION: Scholarships are only considered for students enrolled in SMMUSD for August 2018. Scholarship prices apply to the full program; they are not pro-rated. If your student is enrolled in the free or reduced lunch program, please submit a copy of your student's eligibility notification letter with your registration no later than May 1. If you do not have your letter, please contact Patsy Herschberger in SMMUSD Food Services to obtain a new copy (310-450-8338 x70228 or pherschberger@smmusd.org). For students NOT on free or reduced lunch, a scholarship application may be requested from the Summer Adventure Office or accessed online at summer-adventure.org. The minimum scholarship rate of \$75 is due with your Summer Adventure application. Late applications will be accepted at the discretion of the Principal.

CHILD CARE: SMMUSD's Child Development Services will offer child care from 7:00am to 8:30am and 12:30pm to 6:00pm daily. For more information, see attachment, visit www.smmusd.org/CDS or call Sharon Lee, 310-399-5865 x79523.

FULL-MORNING PROGRAMS**8:30 AM – 12:30 PM****AN ANIMAL A DAY****#010****Transitional Kindergarten & Kindergarten**

Join our summer safari as we travel through oceans, jungles, forests and farms to meet an animal a day. We will practice letters and sounds, counting and patterns and learn about animal habitats as we circle the globe to find some animal friends. On the way, we will meet live animals and explore reading, writing, math, science, social studies, cooking, sculpting, painting, puppets and music to learn fun facts about the animal world!

Materials fee \$20***Elayne Borenstein*****KINDERMASTERS****#020****Transitional Kindergarten & Kindergarten**

If you are excited and ready for Kindergarten learning, then this is the class for YOU! We will have fun with letters and sounds, review sight words and make fun projects, including kooky crafts and quicky, snicky snacks. Literacy-rich activities, phonemic awareness, reading, writing and social science activity centers will be part of our daily routine.

Materials fee \$15***Pat Proff*****YOUNG YOGIS****#030****Grades K-1**

Stand tall like a tree! Bend like a cat! As young yogis, you will learn strategies to help you navigate your world. You will practice yoga, movement, mindfulness, inclusion and empathy in a fun and active environment that includes reading, music, calendar, journal writing, art and social skills.

Materials fee \$20***Danielle Royer*****INSPIRED BY NATURE****#040****Grades K-1**

Experience the wonders of nature through hands-on explorations, guided observations and inspired art projects. We will celebrate the outside world through a wide variety of literature, art, music, songs and age-appropriate games. Join us as we explore nature while having fun!

Materials fee \$10***Liz Franchi*****BOOK COOKS****#050****Grades K-1**

Book Cooks will whet the physical and mental appetites of young readers. We will spend 3-4 days diving into a new book, studying the story elements, focusing on vocabulary and writing a response. We will then finish the book with a culminating cooking activity that aligns with the story! We will focus primarily on fiction titles at a variety of reading levels to engage all students, as we feed our brains and our bellies!

Materials fee \$15***Holly Hodges*****EXPLORATIONS IN MATH, ART AND LITERACY****#060****Grade 1**

Explore "FUN"-damental math concepts, express yourself as an artist and learn to LOVE reading and writing! Dig into foundational math ideas such as counting, geometry, place value and early problem-solving. Join us as we explore multi-media art. Delight in poetry, fiction and non-fiction books as we use these texts to mentor our journey through writing in a variety of genres. Come join the fun!

Materials fee \$10***Stefanie Mathewson*****PRIMARY OCEANOGRAPHY****#070****Grades 1-2**

This very popular class is back for another year! Taught by a team of three experienced primary teachers, this course is an in-depth study of sea life. You will attend research trips to the library and the Santa Monica Pier and even have visits from real marine scientists, all in order to gather knowledge and have hands-on experiences with sea life. You will be encouraged to apply your knowledge of sea life in a variety of activities: sea life stories, sea life riddles, pop-up books, and under-the-sea murals, just to name a few! Math and science will be integrated throughout the program. Teachers will adjust instruction to challenge and motivate individual learning needs. Don't miss the fun!

Materials fee \$20***Cynthia Thatcher, Rebecca Urias,
Emma Fujiwara***

PERIOD I**8:30 AM – 9:40 AM****MAKER-SPACE: STEAM THROUGH THE SUMMER #101**
Grades 2-3

Do you like to tinker? Do you like to invent and create new things? This is the class for you! You will be encouraged to create something unique that has never been seen before. For part of each week, you will have the freedom to explore your own interests and come up with projects you would like to create. For the remainder of each week, you will work with a partner or team to solve a variety of Scientific, Technological, Engineering, Artistic and Mathematical problems. We will be cooking, building, creating and solving challenges using Lego®, K'Nex®, computers and recycled materials. Join us for an action-packed, fun-filled experience and STEAM through the summer!

Materials fee \$20 *Lori Alexander, Carl Avitia-Witt*

BASKETBALL FOR BEGINNERS #102
Grades 2-3

This class welcomes all beginners who want to learn the fundamentals of basketball by working on their skills through drills, while learning to defend and scrimmage amongst each other. You will also learn teamwork and good sportsmanship, and stay fit at the same time!

Materials fee \$15

Paul Kumasaka

AMAZING ART #103
Grades 2-5

Join this class to learn about the seven elements of art design: line, shape, texture, color, value, form and space. You will observe and discuss how famous and contemporary artists used these basic concepts of art design in their works. We will incorporate a variety of materials in our projects, including crayon, marker, paint, pastels, yarn and paper. You will express yourself and have fun while creating your own personal drawings, paintings, collages, weavings and sculptures. Be an artistic star – join us and make Amazing Art!

Materials fee \$15

Stephanie Neumann

LET'S DANCE #104
Grades 2-5

Dance! Dance! Dance! We'll make your "Hands Clap" because Westside's finest dancers never fail to impress. You will experience the power of creative dance while developing confidence, problem-solving, perseverance and collaboration. You will choreograph and perform your creations. Everyone is welcome and no experience is necessary. Come join us for summer fun and show your moves. Let's dance!

Materials fee \$5

Linda Brown

STORIES THAT POP UP! #105
Grades 2-5

Express yourself with words and 3-D pop-ups! Awaken the creative writer and artist within you! Once you learn the basic steps for making pop-ups using all kinds of crafty materials, you can create your own designs. Use your imagination in new ways to illustrate your stories. Write better paragraphs with captivating details that actually jump off the page. Have fun improving your essential writing skills. Our summer session will culminate with a writers and artists showcase for families to attend. Freedom of expression is your key to Stories That Pop Up!

Materials fee \$15

BRICKS 4 KIDZ #106
Grades 2-5

In this class, you will learn, build and play with LEGO® bricks and be introduced to basic principles of architecture and engineering, building self-confidence while having fun. Bricks 4 Kidz teachers lead a discussion related to that day's model, using materials designed by educators to teach STEM concepts across a variety of subject areas. Themes will include models from Super Heroes, Transportation Timeline, Extreme Ninjas and Brick City Engineers. This class will conclude with a special EXTREME EXPEDITION week. Teams will search the globe for bricks and other resources necessary to construct a base in the Himalayan Mountains, while facing survival challenges and the forces of nature. All team members will receive a mini-figure and a special mini-model to take home following your completion of the challenge!

Materials fee \$15

Autumn Moss-Peñaloza

PERIOD I (cont'd.)**8:30 AM – 9:40 AM****MATH GAME MANIA****#107****Grades 2-5**

Enrich your math skills in addition, subtraction, multiplication, division, number sense, money and problem-solving. We will also improve our critical thinking while playing with dice, cards and math puzzles. Fridays are Math Mania days, where we play any of the games we have learned and win prizes. The class ends with designing your own board game. Improve your math skills while having fun!

Materials fee \$5***Rosio Medina*****PE AVENGERS HAVING FUN!****#108****Grades 2-5**

We will play and build skills through a variety of PE games that are demonstrated throughout the school year. All our favorite games are designed to build sportsmanship, teamwork, cooperation, skills and FUN! We will play games from SPARK@PE, part of the current SMMUSD district-wide curriculum. New games and skills will be introduced as well. The importance of daily aerobic activity, improving athleticism, warming up, staying hydrated, cooling down and maintaining a positive attitude will be emphasized.

Materials fee \$20***Tony Murphy*****WORLD TRAVEL THROUGH ART,
LANGUAGE AND FOOD****#109****Grades 2-5**

All aboard, Air Roosevelt! We'll travel to five different continents during our five-week summer journey, including Asia, Africa, Europe, Australia and the Americas! We will become "world travelers," learning about a variety of countries and cultures through art, language, music, geography and sampling delicious entrees and snacks. At the end of our travels, you will walk away with a "passport" packed with helpful phrases and delicious, kid-friendly recipes.

NOTE: Foods served are often non-gluten free and may contain animal products. Parents of children with severe allergies are cautioned.

Materials fee \$40***Akiko Gooden*****EXTRA! EXTRA! READ ALL ABOUT IT!****#110****Grades 3-4**

Join this rich reading experience as an **incoming 3rd or 4th grader**, where literature comes alive and you will grow as a reader! You will learn what good readers do by participating in whole class read-alouds, small group literature circles, book club/novel groups and a variety of independent reading activities. Technology, art, cooking, science, drama and a variety of music will be incorporated into our activities, keeping us engaged and reading!

Materials fee \$15***Audra Radcliffe*****PROJECT CIRCUIT****#111****Grades 3-5**

Project Circuit is an introduction to the amazing world of electrical engineering. We will work in small groups to build circuits, starting with simple circuits and gradually building towards more complex and sophisticated circuits. With each project and challenge, we will be reading, planning, connecting, testing and revising, all while having fun!

Materials fee \$10***Jeremy Munson*****ACTING-DRAMA****#112 & #210*******This is a two-period class.*******Grades 3-5**

Working with simple scripts, you will learn the basics of acting and staging a production. Over the course of five weeks, we will memorize lines, learn how to "block" scenes, and become familiar with the basics of the rehearsal process and working on a stage. During the final week we will perform two short plays for an audience!

Materials fee \$20 (total for 2 periods)***Faron Isom***

PERIOD I (cont'd.)**8:30 AM – 9:40 AM****BUY OR SELL? STOCK MARKET SIMULATION #113****Grades 3-5**

If someone gave you \$150,000, what would you do with it? In this fast-paced class, you will team up to learn about the stock market and create a personal investment portfolio. Each team will virtually invest \$150,000 in various stocks, while learning to track the progress of your investments using a variety of math skills. You will examine and monitor your profits and losses to determine if you should buy or sell, while reinforcing your math skills and having fun. Instruction will be adjusted to challenge and motivate the individual learning needs of all students.

Materials fee \$5**Stacy Spehn****FUN MATH GAMES #114****Grades 3-5**

We will have fun while gaining confidence in mathematics. You will sharpen your number sense and build math proficiency while playing a variety of board games that require addition, subtraction, multiplication, as well as higher-level problem-solving skills.

Materials fee \$5**Christine Brewer****DIGITAL STORYTELLING #115****Grades 3-5**

Are you a creatively-minded, tech-savvy kid looking for tons of fun? Join us and you'll be given an opportunity to learn and master the art of storytelling using animation technology and digital tools! Come work in cooperative, story interest groups and use animation programs such as Claymation®, Storyboard Generator®, Go-Animate®, FRAMES 5® and Stop Motion® movies to perfect and publish your work. You will receive a Go-Animation® license to use for the year, as well as a flash drive or DVD to take home with your creations to share and enjoy. Are you ready to be a digital star?
